

TRAINING OPPORTUNITY

CIT AND MHO

Eligible for TCOLE credit

TRAIN-THE-TRAINER

The aim of this instructor development course is to equip participants with the necessary tools, skills, knowledge, and abilities to effectively arrange, coordinate, sequence, and deliver the TCOLE courses CIT #1850 and Mental Health Officer Certification Course # 4201. Along with gaining proficiency in presenting these classes, participants will also receive the essential documentation to teach others, including lesson plans, student manuals, well-designed PowerPoint presentations, videos, scenario-based logistics plans, and evaluation forms.

WHY SHOULD "INSTRUCTORS" TAKE THIS COURSE?

While it's true that any basic instructor could "teach" this class, it is also true that teaching this class without proper specialized training in this topic, represents a great liability risk for everyone, the instructor, the agency, and all stakeholders. Best practices strongly recommend that all instructors be able to demonstrate a proven track record of well documented **SUBJECT MATTER EXPERTISE** in the topic they instruct on, along with **ACTUAL FIELD EXPERIENCE, RELEVANT, CURRENT, VALID, & RELIABLE TRAINING.**

HOSTED BY:

Georgetown Police Department

3500 D B Wood Rd, Georgetown, TX

September 16 - 20, 2024

Tuition: \$725.00 per student

Register online at: www.instructor-z.com

- Current Mental Health Peace Officer Proficiency Certificate
- Active Texas Peace Officer/Jailer Commission

CIT & MHO TRAIN-THE-TRAINER COURSE

This is where we fill in the void with evidence-based training content, academic and field experience.

A team of properly trained instructors ensures that all stake holders, officers, and the communities they serve, will benefit from quality training.

We cannot be indifferent to the current trends and the prevalent law enforcement landscape. Now more than ever we need professional, reliable, and legitimate training.

Topics of this program include:

- MHPO & CIT Training, best practices
- Instructor ethics, vicarious liability, and risk management during high liability training
- Understanding SB1849 and its legislative mandates
- "How & Why" - teaching about de-escalation, crisis communications, and use of force in behavioral disturbance calls
- "How & Why" - teaching about the most common personality disorders during police encounters
- "How & Why" - teaching about the most common mood disorders in police encounters
- "How & Why" - teaching about the most common anxiety disorders during police encounters
- "How & Why" - teaching about the most common developmental disorders during police encounters
- "How & Why" - teaching about the most common cognitive disorders during police encounters
- "How & Why" - teaching about the most common thought disorders during police encounters
- "How & Why" - teaching about suicide prevention
- "How & Why"- scenario based training and implementation logistics
- "How & Why" - teaching about the Texas Health & Safety Code as it relates to MHPO & CIT
- Set up, delivery, testing, and evaluation of a class
